Police behavior attacked by student after arrest

Editor

Doug Vickers, president of the College Democrat chapter on campus, has accused the Martin Police Department of being "very unprofessional" in his arrest Tuesday night stemming from a parking

ticket.
This charge has been directly denied by Steve Glaser, one of the two arresting officers who sought to serve a warrant on Vickers. Lieutenant Bill Harrison was the other arresting officer.

Vickers, who goes to court today at 4 p.m., was charged with resisting arrest in the incident that occurred at his University Courts apartment. According to Vickers, the officers may have violated his

rights.

The resignation of SGA Secretary of Communications Bill Nance last week could, if handled properly, have positive consequences for both the students and SGA itself.

The resignation of Nance itself is not the main issue. He felt he was not doing the job, saw no chance for improvement, and decided to quit. Although he should have realized this before running, he did at least have the fortitude to resign instead of continuing on a halfway basis. Now the students should be able to be represented to a greater extent than they

A more important point in the issue is the statement made by Nance regarding the position of secretary of communications. Although the position is an important one, it is constitutionally bound by duties that are simply not needed. The position, if revamped, could become more than merely a public

relations outlet for SGA-sponsored events. A case in point is the constitutional duty of the secretary to publish a weekly calendar of events and SGA newsletter. With The Pacer and WUTM serving the function of providing

the campus community with news, it seems senseless for SGA to spend the time and money to print up separate publications. Little could be included that is not adequately covered. already, and few students would read it if it had nothing new in it. The constitution should be

amended, if not to abolish these duties, to at feast make them monthly or semi-monthly. There is no need for such weekly publications There is a need for the secretary to furnish

Proper lines of communication have been maintained to a degree, but the new officer should work even harder to open them even further. That is a fitting duty for the secretary of "communications," and one that requires a

It is also a duty of the secretary to chair the Communications Committee. This committee has been as unproductive as many other campus' committees, but it could become an important asset to a secretary who used it

properly. Instead of having an officer and committee doing little, there could be both an active secretary and committee to carry out the rudimentary functions needed to propagate

The main requirement for the new secretary should be that he have enough time to fill the post. As in most student leadership positions, there is a great deal of time involved in being an SGA officer. Nance found that he didn't have the time, but hopefully the new officer will.

It would be easy for SGA to disregard Nance's suggestions as "sour grapes" and continue to operate on the same set of principles as before. As Nance was apparently not doing the job well, this inclination would be even stronger. They should analyze the position's requirements now however, while the chances are good for reform. The new secretary would be much better off spending his time on substantial items and not on the "unimaginative trivia" that is required in the constitution.

Why doesn't UTM offer respiratory therapy as a field

According to Dr. Milton Simmons, dean of liberal arts, no one has asked for the program. If someone did propose the program it would have to be approved by the UT Board of Trustees. Even if it was approved it still runs the risk of being opposed by the community colleges.

Why doesn't McCord have a television in the lobby?

'McCord voted to have their television placed in the basement some time ago.
With the type of floor covering in the lobby there is the chance of cigaret burns in the floor covering. The flooring has now been reworked in the lobby," Earl Wright, assistant

"We have reported the clocks to maintenance several times," Joel Stowers, director of the library, said.

"A part is on order. Hopefully it will come in soon," Stowers added.

Why are McCord and Austin Peay Hall's open houses so strict?

'Differentiated housing was designed to lessen the shock of transition from high school to college. The open house policy is stated in the housing ap-plication which explains the open house regulations," Earl Wright, assistant director of housing, said.

A suggestion was offered to let the proposed committee serve as an Ad Hoc committee and not as a standing one, but this too, was refused.

Eisterhold's chief argument with the matter was that the International Program is not represented by a member in the Academic Senate so he did not feel a Senate sub-committee would be justifiable.

In another development, the Academic Senate approved a Joint Statement which will be submitted to other institutions across the state. The statement, in short, states that the faculties of the campuses of the University of Tennessee have not received adequate remuneration for their

Tourney opens tomorrow; Maryville first opponent

Special Assignments Editor Following victories in its last two regular season games Saturday, the Lady Pacer volleyball team enters the state tournament tomorrow in Clarksville on the Austin Peay State University campus.

The Pacers will enter the tournament along with eleven other small college teams. The tournament is being divided into small and large college divisions with the Pacers going into the small division seeded number one.

The Pacers' first match will be at 12:00 tomorrow against the winner of the Fisk-Maryville match played earlier in the morning

"We're going into the tournament seeded number one because we finished fourth in the state last year and the three teams above us were all large schools," Lucia Jones, head coach, said. "And among the teams that finished in front of us last year we've beaten this year except for East Tennessee State University."

In Saturday afternoon's final home stand the Pacers took two wins over first Lambuth College and then Freed-Hardeman. The scorers

Jones said the tournament will be double elimination as the small school teams will only have to battle one

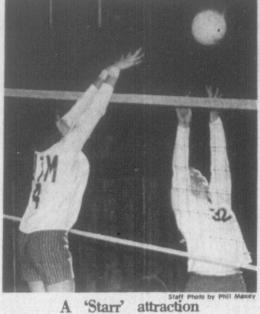

another, not large schools.
"We don't know a lot about

many of these schools in the small division," Jones said. "Of the ones we've already played this year, we look fo Tennessee Tech, UT Chattanooga, and Lambuth to really be tough. Lambuth has really improved the last few

"Even if this tournament wasn't being broken down into large and small school divisions I believe we could compete on the large school level," she continued. "The only large school we've played and not beaten has been East Tennessee State."

Jones further explained that the schools are being placed in these two respective divisions, large and small, according to the number of women enrolled in each school.

The Pacer basketball team will begin its 1975-76 season during Interim Term, according to head coach Robert

'We could label ourselves as contenders, although I don't think the other conference coaches would," Paynter said. Although no starting lineup

has been decided upon, the four seniors on the squad have been designated as the honorary team captains and will alternate on a game basis. The Pacers will attempt to run more on offense and will implement a combination of the man-to-man, zone, and pressure defenses. Coach Paynter said that Interim Term would present some special types of problems because the players wouldn't be able to take any classes due

to the scheduled road games. "The main thing is to keep the players occupied in order to lessen the boredom that sets the students being gone during this time, I hope the students in this area will come to the

to combat Lions Saturday The Pacers, now 2-6, were led by quarterback Alvin Smalls and fullback "Sweetcake" Williams. After two straight road games, the Pacers will host the University of North Alabama Lions this week

following a 17-0 loss to Troy State before a crowd of 2,500.

"They whipped us every way possible," Coach Mac Intyre said: SullivanWalker was truly outstanding running the ball. I think for the first time this year our kids weren't ready to play." ready to play.' The game was dominated by

the Trojans, or more specifically Sullivan Walker, a transfer from Auburn, who scored both Troy State touchdowns. The home team started at their own 42-yard line and drove to the Pacer's 34 before a Gary Guthrie interception at the eighteen halted the drive.

However, UTM was forced to punt and the Trojans once again received excellent field position, this time at their own 47. Following a two-yard plunge into the center of the line, TSU quarterback Bobby Lee pitched out to Sullivan Walker, who outraced the defense 51 yards for the score. The extra point gave the home team a 7-0 lead.

The Pacers' next offensive attempt stalled around midfield, and David Brown punted the enemy into a hole at their own seventeen. The Trojans then mounted one of the few sustained drives given up by the Pacer defense all year, marching eighty-three yards in fourteen plays, with Sullivan Walker scoring from two yards out. Again the PAT was good and Troy State led

The Trojans attempted two field goals before halftime, neither which was good. The first was a 53-yard effort which would have tied the Gulf South Conference record, now held by UTM's Randy Barnes in a 1972 game against North Alabama. The other attempt came from 42 yards away and the TSU lead stood at 14-0 at halftime.

Troy State kept the Pacers backed in their own end of the field in the third quarter, and, although the score remained the same at the end of the period, they had good field position as a result of a blocked punt. After the of-fensive threat stalled, a 47-yard field goal — which tied the Troy State record -- gave them a 17-0 lead early in the

final period.

After an exchange of possessions, UTM had the ball on their own four. The Pacers then drove 91 yards, which was sustained by a fumbled punt, a play that covered a total of 44 yards. The Pacers' attempt for a first down at the TSU five failed and that was the last threat of the game.

Smalls had 51 yards rushing and 31 passing, while Williams was held to 38 yards on the

Voter registration drive set for Winter Quarter

By KAREN FRANKLIN

News Editor SGA will hold a post card voter registration drive outside the Ballroom during Winter Quarter registration. according to Steve Cox, SGA

Cox said he was informed by the state election com-missioner, Shirley Hassler, that the post card registration forms are presently being printed and should be ready by the end of November or beginning of December.

Cox said that a registered voter from the county which a person is allowed to register in must be present during the registration. He encouraged all registered voters from all counties that were interested in the drive to contact SGA.

'Hopefully we will have enough registered voters to cover several counties as opposed to just Weakley County," Cox said.

The Knox County Election Commission turned down 2100 of UT Knoxville's post card registration forms due to their meeting registration

Half of the 2100 rejections were unacceptable for a dozen different reasons, including the use of witnesses who were not registered voters and failure of the applicant to complete information on the

The other half of the rejections were not unacceptable because of answers given to four questions listed on the state election code under "determination of residence." One of these four questions states "Do you

state legislation.

"The present voter registration law reflects rather poor legislation on the part of the state legislature that enacted it," Chesteen said. "There is nothing wrong with asking a person if he is a resident of the state or the county in which he is registering. However, to require a person to state under oath and threat of conviction for perjury that he intends to continue that residency for an continue that residency for an indefinite period is highly questionable from a constitutional stand point.

"Few of us can anticipate our future so as to be able to say with definiteness how long we will reside in a place," Chesteen explained. "Life is too uncertain. I know students who have come to Martin, graduated and remained to live in the county. I doubt if they anticipated that occuring

when they first enrolled."
Chesteen said that 50 million

Americans move every year.
"How can any of us be sure
we will not be among them?" he questioned. "I certainly would not deny myself the right to vote simply because I could not project three or four years into the future.

not have developed."
Safety and Security was not present at first, Council said, but was called to bring a key to open the door. They did no participate in the arrest.

"The Safety and Security officer there at the time observed Glaser's behavior and arrest procedure and fel it to be proper under the circumstances," he stated. "It profanity was used it would be

improper. 'Vickers should have paid the ticket, but there could have been some misun derstanding of the seriousness of the situation," he continued "Having talked with our officer present at Vicker's apartment, it does not seem that the Martin police acted

improperly." Ben Dawson, a witness at the cene, said that there was no Safety and Security officer present at any time and the arresting officer did indeed use profanity. The only person from the University present was someone sent by housing to provide the key, he most blood, with 55 people donating blood. Program will have a Test Rest set up in the athletic feeding area during finals week from 9 p.m. to 1 a.m. for students that need a break from their studies, according to Sara Webb, student co-coordinator

for the PEP program.

The Test Rest is to help release tension due to exams and just for a break," Webb said. Activities planned in-clude free coffee, table games and conversation. Test Rest will be open November 19, 20,

21, 23, 24, and 25.

"The people who will be manning the Test Rest have been through 40 hours of training on interpersonal relationships," Webb explained. This is the first time

this has ever been done at UTM and is open to all
